Energy-based Devices Product Catalog
2010-2011

COVIDIEN

Covidien Energy-based Devices (EbD), the world leader in radiofrequency (RF) energy-based systems, is committed to providing you with a complete line of products that contribute to the safest possible surgical environment.

EbD manufactures a full range of RF energy products — electrosurgical and tissue fusion generators, pencils, patient return electrodes, ablation systems and an entire line of accessories. Our fully integrated systems set the industry standard in patient care and purchasing efficiency.

Generators

ForceTriad	1 each

ForceTriad™ Energy Platform

This platform delivers both enhanced monopolar and bipolar energy with the next generation of LigaSure™ tissue fusion technology all in one unit.

- Enhanced LigaSure™ tissue fusion
- TissueFect™ sensing technology
- Automatic instrument recognition
- Utilizes all current and new LigaSure™ instruments
- Touch-screen technology
- Exclusive Valleylab™ Exchange Software Update System
- Unique Valleylab™ mode for enhanced dissection with hemostasis
- Built-in ammeter
- Autobipolar capability
- PER of 98 in cut
  PER of 97 in Valleylab™ mode
  PER of 95 in coag
- Interlink cable required for use with RapidVac™ or OptiMumm™ smoke evacuation systems — must be ordered separately.
- Adaptive REM™ system
- Accepts only return electrode contact quality monitoring (RECQM) patient return electrodes

All generators are designed to meet applicable international standards. Replacement User's Guides and Service Manuals are available for all models (see page 55). All generators include a power cord. All other accessories are sold separately.

TissueFect™ Sensing Technology

TissueFect™ sensing technology is a control system designed to precisely manage energy delivery creating a range of options for desired tissue effect. The ForceTriad™ energy platform provides the surgeon with consistent power delivery in all monopolar and bipolar modes.

Valleylab™ Exchange Software Update System

The Valleylab™ Exchange Software Update System is an innovative service that allows remote updates to the software in the ForceTriad™ energy platform, without shipping the energy platform to a service facility. This service will enable customers to benefit from current software updates as soon as they are available, with minimal downtime, and is the first remote-access update service in the electrosurgery field.

Valleylab™ Mode

A new waveform, Valleylab™ mode provides a unique combination of monopolar hemostasis and dissection while using a lower power setting resulting in less char, less thermal spread and less arcing than a traditional Coagulation mode.

Power Efficiency Rating (PER)

Measure of the ability of an electrosurgical generator to accurately deliver the selected power into a wide range of impedances.

Adaptive REM™ System

Adaptive REM™ combines the feedback circuitry of hardware monitoring with an advanced software-controlled adaptation feature. The adaptive system still maintains the 5-135 ohms limits, but also creates a window of acceptable impedances based on contact conditions of the individual patient.

LATEX Latex Free

Software Application ForceTriad™ Energy Platform

New

I Bipolar resection

The Bipolar Resection Activation Kit enables activation of the bipolar-resection application on a single ForceTriad™ energy platform with software version 3.30 or greater.

The application is intended for use in the following procedures in a saline environment: Transurethral Resection of the Prostate (TURP), Transurethral Resection of the Bladder (TURB) and hysteroscopic resection.

FTBRKIT — 1 each

Activation Kit Bipolar Resection for the ForceTriad™ energy platform

- Telephone and email contact information for EbD Technical support – to be contacted for activation of this Software application
- RS232 Cable for connecting the ForceTriad™ energy platform to the biomed PC (for Valleylab™ Exchange)
- License Key Code to be provided to tech support
- CD-Rom with user guides
- Three labels to be applied to the ForceTriad™ energy platform after activation of the software application

FT6009 — 1 each

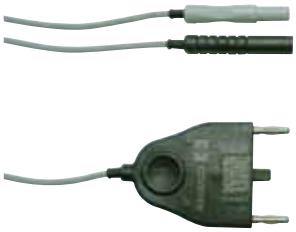
Bipolar Resection Footswitch

- Activates the bipolar resection –resection in Saline
- 4,6 m Cord
- To be used with the ForceTriad™ energy platform

FT0021S — 1 each

Bipolar Resection Cord Storz™*

- To be used with Storz™* bipolar Resectoscopes
- To be used with the ForceTriad™ energy platform
- Reusable
- 4,6 m Cord



FT0022W — 1 each

Bipolar Resection Cord Wolf (coming soon)

- To be used with Wolf bipolar Resectoscopes
- To be used with the ForceTriad™ energy platform
- Reusable
- 4,6 m Cord

LATEX Latex Free

New

STORZBRSET — 1 each

Starter Kit for use with Storz™* Resectoscopes

Contains:

- FTBRKIT Activation Kit Bipolar Resection 1 each
- FT6009 Bipolar Resection Footswitch 1 each
- FT0021S Bipolar Resection Cord Storz™ 1 each

WOLFBRSET — 1 each

Starter Kit for use with Wolf Resectoscopes (coming soon)

Contains:

- FTBRKIT Activation Kit Bipolar Resection 1 each
- FT6009 Bipolar Resection Footswitch 1 each
- FT0022W Bipolar Resection Cord Wolf™ 1 each

LATEX Latex Free

Generators and Monitor

FORCEFX8CS & FORCEFX8CAS — **1 each**

Force FX™-C Electrosurgical Generator

Designed for the most demanding monopolar and bipolar procedures.

- Instant Response™ technology
- Adaptive REM™ system
- Isolated output
- Bipolar current monitor (VLCM) compatible
- Interlink cable required for use with RapidVac™ or OptiMumm™ smoke evacuation systems — must be ordered separately
- PER of 98 in cut

FORCEEZ-8C — **1 each**

Force EZ™-C Electrosurgical Generator

Designed for most monopolar and bipolar procedures.

- Instant Response™ technology
- Adaptive REM™ system
- Isolated output
- Interlink cable required for use with RapidVac™ or OptiMumm™ smoke evacuation systems — must be ordered separately
- PER of 97 in cut

SURGII-8 — **1 each**

SurgiStat™ II Electrosurgical Generator

Designed for light-duty office-based monopolar and bipolar procedures.

- Conventional electrosurgery technology
- Return electrode contact quality monitoring (RECQM) system
- Isolated output
- PER of 86 in cut

Instant Response™ Technology

This smart generator technology features an advanced feedback system that senses changes in tissue impedance and adjusts output accordingly. The result is:

Less thermal damage to surrounding tissue

More consistent surgical performance

Ability to use lower power settings

Less electrode drag

Less capacitive coupling

VLCM — **1 each**

Bipolar Current Monitor

For use with Force FX™ series or LigaSure™ generators.

LATEX Latex Free

Hardware Accessories
Footswitches

FT6003 — **1 each**

ForceTriad™ Energy Platform Three-Pedal Footswitch

- Enables foot activation of Cut, Valleylab™ mode and Coag.
- Activate Valleylab™ mode and Force TriVerse™ electrosurgical device.
- Enables foot activation of Cut and Coag on standard electrosurgical pencils.

  Compatible with ForceTriad™ energy platform only.
- 4.6 m (15 ft) cord

New

FT6009 — **1 each**

Bipolar Resection Footswitch

- Activates the bipolar resection –resection in Saline
- 4,6 m Cord
- To be used with the ForceTriad™ energy platform

E6008B — **1 each**

Monopolar Footswitch

Compatible with all Force™ series and SurgiStat™ II generators.

- 4.6 m (15 ft) cord

E6008 — **1 each**

Monopolar Footswitch

Compatible with all Force™ series and SurgiStat™ II generators.

- 4.6 m (15 ft) cord

E6009 — **1 each**

Standard Bipolar Footswitch

Compatible with all Force™ series generators.

- 4.6 m (15 ft) cord

LS0300 (Purple) — **1 each**

LigaSure™ Single Pedal Footswitch

Compatible with LigaSure™ vessel sealing system and ForceTriad™ energy platform.

- 4.6 m (15 ft) cord

LF0500 (Orange) — **1 each**

LigaSure™ Single Pedal Footswitch

Compatible with ForceTriad™ energy platform only.

- 4.6 m (15 ft) cord

E6019 — **1 each**

Dome Bipolar Footswitch

Compatible with all Force™ series generators.

- 4.6 m (15 ft) cord

E6009B — **1 each**

Standard Bipolar Footswitch (version B)

Compatible with all Force™ series generators.

- 4.6 m (15 ft) cord

All footswitches are water resistant.

Hardware Accessories
Carts and Stand

FT900 — **1 each**

ForceTriad™ Energy Platform Cart
Compatible with ForceTriad™ energy platform.

- Cord management system
- One storage drawer
- Rust resistant
- Conductive casters (2 locking, 2 non-locking)
- Multiple shelves

FT950 — **1 each**

ForceTriad™ Energy Platform Cart Front Panel
Compatible with ForceTriad™ energy platform cart.

- Magnetized for easy placement or removal

FT990 — **1 each**

ForceTriad™ Energy Platform Cart Drawer
Compatible with ForceTriad™ energy platform cart.
Ideal for storing user's manual or extra supplies.

- Replacement drawer or optional additional drawer

E8002 — **1 each**

Mounting Stand for SurgiStat™ II Generator
Compatible with SurgiStat™ series only.

- Cord management hook
- Non-locking, conductive casters

LATEX Latex Free

Hardware Accessories
Carts and Accessories

UC8009 — **1 each**

Universal Mounting Cart
Compatible with all Force™ series generators.

- Rust resistant
- Conductive casters (2 locking, 2 non-locking)
- Supplied with cord management kit

UC8010 — **1 each**

Universal Mounting Cart Overshelf
Compatible with UC8009 universal cart.
Ideal for a second electrosurgical generator, LigaSure™ vessel sealing system, RapidVac™ smoke evacuation system or Force Argon II™ system.

- Supports 75 lbs centered on shelf
- Supplied with cord management kit

UC8012 — **1 each**

Universal Mounting Cart Drawer
Compatible with UC8009 universal cart. Not compatible with UC8013 suspended shelf.
Ideal for storing user's manual or extra supplies.

UC8013 — **1 each**

Universal Mounting Cart Suspended Shelf
Compatible with UC8009 universal cart. Not compatible with UC8012 drawer.
Ideal for the RapidVac™ or OptiMumm™ smoke evacuation system or other smoke evacuation systems.

- Supports 75 lbs

UC8011 — **1 each**

Universal Mounting Cart Cord Management Kit
Compatible with UC8009 universal cart.

- Two brackets

UC8015 — **1 each**

Universal Mounting Cart Argon Gas Tank Kit
Compatible with UC8009 universal cart.

- Holds 2 G-size 42 cubic ft tanks

LATEX Latex Free

LigaSure™ Tissue Fusion Instruments, Sterile, Single Use
For Laparoscopic Procedures

LF5034 | **6 units/case**

LigaSure Advance™ Instrument
Compatible with ForceTriad™ energy platform only.

- Sealer/divider
- 5 mm diameter; 34 cm (13.4 in.) length
- 335 degree shaft rotation
- Curved bilateral jaw
- Dissecting electrode with Valleylab™ mode, hand switching only

New

LF1537 | **6 units/case**

LigaSure™ 5mm Instrument
Compatible with ForceTriad™ energy platform only.

- Sealer/divider
- 5 mm diameter; 37 cm (14.6 in.) length
- 159 degree shaft rotation
- Blunt tip jaw design
- Textured jaw with ceramic stops
- Hand switching or foot switching

All single-use instruments and electrodes have a coded connector for instrument recognition.

New

LF5544 | **6 units/case**

LigaSure Advance™ pistol grip 5 mm – 44 cm instrument
Compatible with ForceTriad™ energy platform only.

- Sealer/divider
- 5 mm diameter; 44 cm length
- 340 degree shaft rotation
- Curved bilateral jaw
- Dissecting electrode with Valleylab™ mode, handswitching

LATEX Latex Free

LS1000 | **6 units/case**

LigaSure™ Lap Instrument

Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sealer
- Continuous shaft rotation
- 5 mm diameter; 32 cm (12.6 in.) length
- Maryland-style jaw design
- Foot switching only

LS1500 | **6 units/case**

LigaSure™ V Laparoscopic Instrument

Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sealer/divider
- 5 mm diameter; 37 cm (14.6 in.) length
- 179 degree shaft rotation
- Dolphin-nose jaw design
- Hand switching or foot switching

LS1037 | **6 units/case**

LigaSure Atlas™ Hand Switching Laparoscopic Instrument

Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sealer/divider
- 10 mm diameter; 37 cm (14.6 in.) length
- 359 degree shaft rotation
- Straight, blunt jaw
- Hand switching or foot switching

All single-use instruments and electrodes have a coded connector for instrument recognition.

LATEX Latex Free

LigaSure™ Tissue Fusion Instruments, Sterile, Single Use

For Open Procedures

LF4200T | **6 units/case**

LigaSure Impact™ Instrument

Compatible with the ForceTriad™ energy platform only.

- Sealer/divider
- Oval shaft 13.5 mm in diameter; 18 cm (7.1 in) length
- 180 degree shaft rotation
- 14 degree curved jaw
- Hand switching or foot switching

LS1020 | **6 units/case**

LigaSure Atlas™ 20 cm Hand Switching Instrument

Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sealer/divider
- 10 mm diameter; 20 cm (7.9 in.) length
- 359 degree shaft rotation
- Straight, blunt jaw
- Hand switching or foot switching

All single-use instruments and electrodes have a coded connector for instrument recognition.

LATEX Latex Free

LS1520	6 units/case

LigaSure™ V 20 cm Instrument

Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sealer/divider
- 5 mm diameter; 20 cm (7.9 in.) length
- 159 degree shaft rotation
- Dolphin-nose jaw design
- Hand switching or foot switching

LS1200	6 units/case

LigaSure Precise™ Instrument

Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sealer
- 16.5 cm (6.5 in.) length
- 15 degree curved jaw
- Foot switching only

All single-use instruments and electrodes have a coded connector for instrument recognition.

Latex Free

LigaSure™ Tissue Fusion Instruments
For Open Procedures

LS2070 | **1 each**

LigaSure™ Std Reusable Instrument
Requires LS2071 electrode. Electrode is compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Non-sterile, reusable
- 18 cm (7.1 in.) length
- 30 degree curved jaw

LS2071 | **12 units/case**

LigaSure™ Std Electrode
Compatible with LS2070 instrument. Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sterile, single use
- Sealer
- Snap-in electrode with cord
- Foot switching only

LS2110 | **1 each**

LigaSure™ Axs Reusable Instrument
Requires LS2111 electrode. Electrode is compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Non-sterile, reusable
- 27 cm (10.5 in.) length
- 60 degree angled jaw

LS2111 | **12 units/case**

LigaSure™ Axs Electrode
Compatible with LS2110 instrument. Compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Sterile, single use
- Sealer
- Snap-in electrode with cord
- Foot switching only

All single-use instruments and electrodes have a coded connector for instrument recognition.

Latex Free

LigaSure™ Tissue Fusion Instruments
For Open Procedures

LS3090	1 each

LigaSure™ Max Reusable Instrument

Requires LS3091 electrode. Electrode is compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Non-sterile, reusable
- 23 cm (9 in.) length
- 30 degree curved jaw

LS3110	1 each

LigaSure™ Xtd Reusable Instrument

Requires LS3111 electrode. Electrode is compatible with ForceTriad™ energy platform and LigaSure™ vessel sealing system.

- Non-sterile, reusable
- 28 cm (11 in.) length
- 30 degree curved jaw

All single-use instruments and electrodes have a coded connector for instrument recognition.

LS3092	12 units/case

LigaSure™ Max Handswitching

Compatible with LS3090 instrument. Compatible with Force-Triad™ energy platform and LigaSure™ vessel sealing system.

- Sterile, single use
- Sealer
- Snap-in electrode with cord
- Handswitching and Footswitching activation

LS3112	12 units/case

LigaSure™ Xtd Handswitching

Compatible with LS3110 instrument. Compatible with Force-Triad™ energy platform and LigaSure™ vessel sealing system.

- Sterile, single use
- Sealer
- Snap-in electrode with cord
- Handswitching and Footswitching activation

LATEX Latex Free

Valleylab™ Mode Products, Sterile, Single Use

FT3000 | **25 units/case**

Force TriVerse™ Electrosurgical Device

Compatible with the ForceTriad™ energy platform only.

- Allows access to Valleylab™ mode
- EDGE™ coated hex-locking blade electrode
- Cut, Coag and Valleylab™ mode
- Accepts all standard 2.4 mm (3/32 in.) shaft electrodes.
- Holster
- 3 m (10 ft) cord
- Sterile-field power control
- Instrument recognition cord connector

FT3000DB | **25 units/case**

Force TriVerse™ Electrosurgical Device

Compatible with the ForceTriad™ energy platform only.

- Allows access to Valleylab™ mode
- EDGE™ coated hex-locking blade electrode
- Cut, Coag and Valleylab™ mode
- Accepts all standard 2.4 mm (3/32 in.) shaft electrodes.
- Holster
- 4.6 m (15 ft) cord
- Sterile-field power control
- Instrument recognition cord connector

New

LF5544 | **6 units/case**

LigaSure Advance™ pistol grip 5 mm – 44 cm instrument

Compatible with ForceTriad™ energy platform only.

- Sealer/divider
- 5 mm diameter; 44 cm length
- 340 degree shaft rotation
- Curved bilateral jaw
- Dissecting electrode with Valleylab™ mode, handswitching

FT0510 | **25 units/case**

Foot Switching Monopolar Cord Valleylab™ mode

- Connects aby surgical instrument with a 4mm connector to the Force Triad™ Energy Platform
  - Delivers Valleylab™ mode
- Works with EndoShears, EndoDissectors, Roticulators, reussable lap handles
- 3 m (10 ft)

Valleylab™ Mode

A new waveform, Valleylab™ mode provides a unique combination of monopolar hemostasis and dissection while using a lower power setting resulting in less char, less thermal spread and less arcing than a traditional Coagulation mode.

Electrosurgical Accessories, Sterile, Single Use
Cords

FT0510 | **25 units/case**

Foot Switching Monopolar Cord Valleylab™ mode

- Connects aby surgical instrument with a 4mm connector to the Force Triad™ Energy Platform
  - Delivers Valleylab™ mode
- Works with EndoShears, EndoDissectors,Roticulators, reussable lap handles
- 3 m (10 ft)

E0520 | **10 units/case**

Valleylab Trigger™ Switch and Cord

Converts most monopolar foot-activated laparoscopic and thorascopic instruments to hand activation.

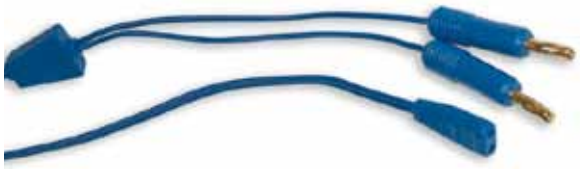
- Accepts 4 mm male post connector
- Trigger switch total length 12,7 cm (5 in.)
- Monopolar connecting cord 3,0 m (10 ft)

E0503 | **50 units/case**

Foot Switching Monopolar Cord

For use with ACMI Classic Series, pediatric, classic long resectoscopes and ACMI Bugbee electrodes. Requires E05021 monopolar adapter.

- 3 m (10 ft)



E0509[1] | **50 units/case**

Foot Switching Bipolar Forceps Cord

For use with Valleylab™ bipolar foot switching forceps.

- Standard dual-pin connector
- 3,6 m (12 ft)

[1] Not allowed in some European countries

E0510 | **50 units/case**

Foot Switching Monopolar Laparoscopic Cord

For use with most monopolar laparoscopic instruments. Requires E05021 monopolar adapter.

- Accepts 4 mm male post connector
- 3 m (10 ft)

E0512 | **50 units/case**

Foot Switching Bipolar Forceps Cord

For use with Valleylab™ bipolar foot switching forceps. Compatible with Force™ series and SurgiStat™ II generators.

- Molded plug
- 3,6 m (12 ft)

LATEX Latex Free

Electrosurgical Accessories, Non-Sterile, Reusable, Bipolar Cords

Cords

E360130	1 each

Footswitching Forceps Cord

For use with ERBE/STORZ/WOLF generators only.

- Molded plug
- 4,5 m (15 ft)

E360131L	1 each

Footswitching Forceps Cord

For use with ERBE/STORZ/WOLF generators only

- Molded plug
- 4,5 m (15 ft)

E360139L	1 each

Footswitching Cord

For use with Martin/Berchthold/Aesculap generators only

- 4,5 m (15 ft)

E360135[1]	1 each

Footswitching Cord

For use with US generators only..

- 4,5 m (15 ft)

[1] Not allowed in some European countries.

E360150L E360150[2]	1 each

Foot Switching Bipolar Cord

For use with Valleylab™ generators only.

- Molded plug
- 4,5 m (15 ft)

[2] Short connector

Latex Free

Electrosurgical Accessories, Non-Sterile, Reusable, Bipolar Cords

Steam sterilizable.

E0020V	1 each

Foot Switching Bipolar Cord

For use with the ForceTriad™ energy platform. Also compatible with all Force™ series and SurgiStat™ II generators.
For use with Valleylab™ bipolar foot switching forceps.

- Molded plug
- 4,5 m (15 ft)

E0021S	1 each

Foot Switching Bipolar Cord

For use with the ForceTriad™ energy platform. Also compatible with all Force™ series and SurgiStat™ II generators.
Compatible with most Storz bipolar instruments.

- Molded plug
- 4,5 m (15 ft)

E0022W	1 each

Foot Switching Bipolar Cord

For use with the ForceTriad™ energy platform. Also compatible with all Force™ series and SurgiStat™ II generators.
Compatible with most Wolf bipolar forceps.

- Molded plug
- 4,5 m (15 ft)

Bipolar resection cords

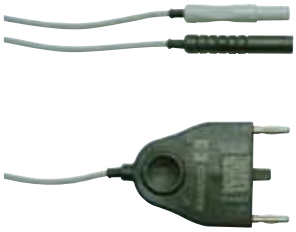
[New]

FT0021S	1 each

Bipolar Resection Cord Storz™*

- To be used with Storz™* bipolar Resectoscopes
- To be used with the ForceTriad™ energy platform
- Reusable
- 4,6 m Cord

[New]



FT0022W	1 each

Bipolar Resection Cord Wolf (coming soon)

- To be used with Wolf bipolar Resectoscopes
- To be used with the ForceTriad™ energy platform
- Reusable
- 4,6 m Cord

Electrosurgical Accessories, Non-Sterile, Reusable
Adapters

E0017	1 each

Universal Monopolar Adapter
Compatible with Valleylab™ and most electrosurgical generators for foot switching activation.

- Accepts standard monopolar accessory cords up to 6 mm

E0502-1	1 each

Monopolar Adapter
Compatible with Valleylab™ and most electrosurgical generators for foot switching activation.

- Accepts standard monopolar accessory cord pin connectors up to 3.2 mm

E0005-3C	1 each

Monopolar Adapter
- Accepts 4 mm standard active accessory

368587	1 each

Monopolar Adapter
For use with Martin/ Berchtold generators.

- Accepts Valleylab 3 pin electrosurgical pencils

368687	1 each

Monopolar Adapter
For use with Erbe ACC/ICC generators.

- Accepts Valleylab 3 pin electrosurgical pencils

FT0501	1 each

ForceTriad™ Bipolar Adapter
For use with ForceTriad™ energy platform only.

Allows connection of bipolar accessory cords with standard dual-pin “flying lead” connector to the ForceTriad™ energy platform.

E0504-2	1 each

Non-REM™ Patient Return Electrode Adapter
See Patient Return Electrode Adapter Quick Reference Index on page 38 for a list of compatible generators.

- Accepts standard non-REM™ Adult PolyHesive™ patient return electrode (E7506)

E0507-B	1 each

Multiple Return/S Cord Adapter
For use with all Valleylab™ REM-equipped generators.

- Accepts Valleylab™ REM PolyHesive™ II patient return electrodes
- Enables use of two patient return electrodes
- Enables use of an S cord

Electrosurgical Accessories

Argon-Enhanced Electrosurgery
Force Argon™ II System and Accessories

FORCEARGONII-8	1 each

Force Argon II Gas Delivery Unit

Requires Force FX™ series, Force EZ™ series or ForceTriad™ generators.

- Portable
- Includes one gas regulator
- Gas flow control for open and lap procedures

GR200A	1 each

Gas Regulator

- For optional second argon tank hook-up

UC8009	1 each

Universal Mounting Cart

Compatible with all Force™ series generators.

- Rust resistant
- Conductive casters (2 locking, 2 non-locking)

UC8010	1 each

Universal Mounting Cart Overshelf

Ideal for a second electrosurgical generator, LigaSure™ vessel sealing system, RapidVac™ smoke evacuation system or Force Argon II™ system.

- Supports 75 lbs centered on shelf

UC8015	1 each

Universal Mounting Cart Argon Gas Tank Kit

- Holds 2 G-size 42 cubic ft tanks

Smoke Evacuation Products
RapidVac™ Smoke Evacuation System and Accessories

SE3695 — **1 each**

RapidVac™ Smoke Evacuator
Requires SEA3700 RapidVac™ smoke evacuator filter.
For use with any electrosurgical generator.

- Evacuates electrosurgical smoke and laser plume
- Synchronizes with electrosurgical units for auto activation using SEA3730 or SEA3740
- Five power levels plus turbo mode
- Maximum flow rate of 44 cfm
- Needs no prefilters or adapters

SEA3700 — **2 units/case**

RapidVac™ Smoke Evacuator Filter
- Four-stage, ULPA filter technology
- Three convenient ports, no adapters needed
  Port size: 6 mm (1/4 in.)
  10 mm (3/8 in.)
  22 mm (7/8 in.)
- No prefilter needed
- 25 hours of activation time; approximately three to five months actual use

SEA3730 — **1 each**

RapidVac™ Interlink Cable
Synchronizes RapidVac™ system to ForceTriad™, Force FX™ series and Force EZ-C™ electrosurgical generators.
- 3 m (10 ft) cable

SEA3740 — **1 each**

RapidVac™ Remote Switch Activator
Synchronizes RapidVac™ system to any generator using audio sensing of its activation tones.
- 3 m (10 ft) cable

SEA3745 — **1 each**

RapidVac™ Smoke Evacuator Foot Switch
For use with RapidVac™ smoke evacuator
- 4.6 m (15 ft) cord

Latex Free

Smoke Evacuation Products, Sterile, Single Use
RapidVac™ Tubing

SEA3705	6 units/case

Tubing, 1/4" x 10'

- Connects directly to RapidVac™ smoke evacuator
- Lap tubing/no valve

SEA3720	12 units/case

Laparoscopic Tubing, 1/4" x 10'

- Connects directly to RapidVac™ smoke evacuator
- In-line valve enables controlled smoke evacuation with minimal pneumoperitoneal pressure loss

SEA3710	6 units/case

Tubing, 3/8"x 10'

- Connects directly to RapidVac™ smoke evacuator
- Interfaces with AccuVac™ pencil

SEA3725	10 units/case

Wand

Compatible with E3635 and SEA3715 7/8" tubing.

- For evacuation of laser plume; laser resistant
- 2.2 cm (7/8 in.) diameter
- 20 cm (8 in.) length

SEA3715	10 units/case

Tubing with Sponge Guard, 7/8" x 10'

- Connects directly to RapidVac™ smoke evacuator

E3595	10 units/case

AccuVac™ Smoke Evacuation Attachment Extender

For use with 15.24 cm (6 in.) extended electrodes.

Compatible with ForceTriad™ energy platform.

- Cord management system
- Rust resistant
- Conductive casters (2 locking, 2 non-locking)
- Multiple shelves ideal for RapidVac™ or OptiMumm™ smoke evacuation systems

UC8009 — **1 each**

Universal Mounting Cart
Compatible with all Force™ series generators.

- Rust resistant
- Conductive casters (2 locking, 2 non-locking)
- Supplied with cord management kit

UC8010 — **1 each**

Universal Mounting Cart Overshelf
For use with UC8009 universal mounting cart only.

Ideal for RapidVac™ or OptiMumm™ smoke evacuation systems.

- Supports 75 lbs centered on shelf
- Supplied with cord management kit

UC8013 — **1 each**

Universal Mounting Cart Suspended Shelf
For use with UC8009 universal mounting cart only.
Not compatible with UC8012 drawer.

Ideal for the RapidVac™ or OptiMumm™ smoke evacuation systems.

- Supports 75 lbs

Latex Free
